In the 1991-92 Christmas break, two papers were published in Science on opposites of the DNA fingerprinting conflict (Science 254: 1745-50, and 1735-39).

Inmates at the minimum security prison live in open dormitory-style living quarters and are expected to work jobs such as maintenance, food service or landscaping.

I would say they were worth about 50 playing tickets.

I'm not a total noob, nor a dummy, but fairly explicit instructions would be greatly appreciated.
